To the man of large income 'a problem easily solved presents itself, for it is well known that almost any property within certain limits is bound to advance rapidly in value with a ready market, but to the masses seeking homes or investments that will prove better than Government bonds and safer than stocks the question becomes one of the utmest importance and most careful consideration.

Another dealer said: "There is continued activity in the portheastern section, and there are to-day perhaps more buildings in course of crection there than in any other quarter with the same number of inhabitants to the square mile.
